

Be Cyber Safe

Every time you go online,
Follow these rules and you'll be fine.

Choose a clever, secure password,
It's best to have something quite absurd.

Don't give out personal details online,
Or suddenly things may not be fine.

If you 'block and report',
You may find a little support.

Don't play games all night and be a fool,
Sleep well so you're alert when going to school.

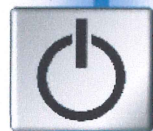

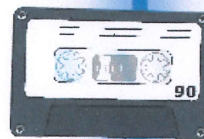

Buy some antivirus software,
To make sure there's no virus there.

Always write messages carefully,
To avoid becoming a cyber-bully.

Start social media at the right age,
Don't post information on the stage.

If you have a guided friend,
They will help you to the end.

E-safety certainly holds the key,
In order to becoming free!

Wow Imogen,
what a neat
and cleverly rhyming
e-safety poem.
Well done! ☺
